

MESSAGE TO THE GNOSTIC REVOLUTIONARY YOUTH

The Purgatory Planet.

Speaks to you, Samael Aun Weor. Friends of the gnostic youth: to you I speak.

The time has come to understand the necessity to strengthen the Essence. Remember that the Essence, descends from the Milky Way. So, it is obvious that it has transcendental powers (spiritual, marvellous), that can allow us to see, to listen, and to touch the great realities of the superior worlds.

Obviously my dear friends, the Essence is bottled up, inclosed, trapped among the different inhuman elements that in themselves form the Ego, the "I," the myself, the oneself.

Undoubtedly, the elimination of those undesirable elements, has to be done with infinite patience. Remember that only dissolving those elements the Essence will attain its freedom, in order to awake in radical and extraordinary form. So, reflect...

In the moments in which I am speaking in front of this microphone, in the moments in which I am recording this tape, I remember that even the Sacred Sun Absolute, in a remote past, had to pass through a great catastrophe, that is known as the period of the God Chootlitanico.

It happened that those that attained the Self-Realization, in an unavoidable form used to penetrate into the Sacred Sun Absolute. Unfortunately, some sacred individuals became inhabitants of the Royal Sun, still having within themselves, certain sins of the soul, some undesirable-residual elements very subtle. Obviously, when there were a certain quantity of those individuals living in the sublime region, they established with that Sacred Sun Absolute, a kind of Geneotriamasikamnian contact: the atmosphere of the Sacred Sun Absolute became infected and fatal consequences were known in our solar system of worlds. An these ones, that is to say, those not harmonic elements, mixed with the Sacred Theomertmalogos, with the alive essence of the Logos, infected many individuals that were creating the Superior Existential Bodies of the Being in our system of worlds. They also infected the superior parts of the Being of those initiates, and produced disharmonies in the movement of the planets around the Sun.

For that reason, the ineffable Aelohim, that is to say, the Eternal Cosmic Common Father, had to establish in our solar system a planet called Purgatory, a secret planet, a world in which those that still had inhuman elements, could live and to exist freely. It is clear that in that secret world, are purified those that want to penetrate definitively in the Sacred Sun Absolute. There had to go to live those that still had undesirable elements in their intimate nature.

It is said that world of our solar system, is the best; that has many singer birds, ineffable and terribly divines; exquisite minerals, vegetables plenty of wonders, delicious flowers, etc., etc., etc.

It also have been said to us about the caverns in which those initiates live. In those caverns they are committed exclusively to the elimination (from their intimate nature) of the undesirable elements, with the intension to one day go into the Sacred Sun Absolute.

Observe, dear gnostic youth, how difficult is to eliminate of our nature the inhuman elements. If ineffable beings have to pass through the Purgatory planet, before to penetrate in the Sacred Sun Absolute, what could we say?

So, it is convenient to reflect profoundly about all of these things...

It was necessary to make certain modifications, to the Law of Three and to the Law of Seven, in order to save the Sacred Sun Absolute. It is written that if before the Sacred Sun was Auto-Egocratic, that is to say, that could live by itself, after, because of the modifications made to the Law of Three and Seven, it became Trogo Auto Egocratic. Now, through the contact with this external world, the Sacred Sun Absolute can exists harmoniously. He gives and receives (that is the Trogo Auto Egocratic process), and in this form can live and does not dissolve itself.

The Sacred Sun Absolute, my dear gnostic youth, is the lateral octave of the Sun that illuminates us; it is the Spiritual Sun, that is occult beyond of this physical Sun that illuminates us.

It has been said to us that there existed a tragic period to our Sacred Sun Absolute (I would say catastrophic). I am talking emphatically about the epoch of the God Chootlitanico. In order you could take note of the word, I will repeat it letter by letter: C-H-O-O-T-L-I-T-A-N-I-C-O. What was the catastrophic epoch of the God Chootlitanico? That is something that we have to clarify.

It happened, at the beginning, that those that formed the Existential Superiors Bodies of the Being, could penetrate directly in the Sacred Absolute Sun; then they used to become inhabitants of that region. Unfortunately, the catastrophes always exists: there were some self-Realized that penetrated in the Sacred Sun Absolute with inhuman elements in their Existential Superior Bodies of the Being. Later, because of that, was established what we could call a contact of Geneotriamasikamnian type, really very grave. That is to say, those sacred individuals, with the inhuman-residual elements in the Superior Existential Bodies of the Being, when enter in contact with the atmosphere of the Sacred Sun Absolute, they infected it unfortunately. The most grave is, that psychological infection, that fatal influence, affected all the inhabitants of the Solar Absolute and this was really disastrous.

I want you to analyze this carefully, to understand it profoundly.

Undoubtedly for that reason, it was altered the Theomertmalogos, that is to say, the Solar Logoic Force that emanates from the Sacred Sun Absolute. Naturally, once the Theomertmalogos was altered, it also infected the superior parts of the Being of all of those individuals of our solar system that were working in their Inner Self-Realization. Obviously, the logoic force, once altered, influenced negatively over the Existential Superior Bodies of the Being in process of development.

So, this situation was grave. Also, were produced not harmonious cosmic phenomena. Result: the infinite Aelohim, the Eternal Cosmic Common Father, had to fit a planet to those Divine Beings that had been, we would say, infected by the inhuman elements. Since then, that planet have been called the Purgatory planet; even though each esoteric system, call it with a particular name.

It is not estrange that in the Orient, the region related with that planet is called Region of Atala. However, it is a world in where the ineffables, those that have attained the crystallization in themselves of the three basic forces of the creation, can purify, to eliminate of the psyche the undesirable elements, in order to enter or to penetrate into the Sacred Sun Absolute.

That Purgatory planet, is for all our universe, the heart and the place of concentration of all the results, of the pulsation of everything that works and to exits in the universe. And esoterically speaking, certain Master affirm emphatically that our Common Infinite Creator Father, appears constantly there only because this sacred planet is the place of existence of the most unfortunates beings that have created the Existential Superiors Bodies of the Being.

Obviously, those that deserve to live in that Sacred Planet, suffer, yearn, want to penetrate in the Sacred Sun Absolute and obviously Aelohim, that is to say, that something that does not have name: the Eternal Cosmic Common Father, takes some form, appears frequently there, so with that apparitions could, we would say to console the souls that fight for the elimination from their psychic, of all the inhuman elements.

Undoubtedly, this sacred planet is the best, the richest and the most beautiful of all the planets of our solar universe. So, I am talking about a secret, esoteric, occult planet.

It is say that it has exquisite and incomparable splendours; it is say that there exists only the spring; it is affirmed that in that world there are 10.000 minerals and vegetables and that because of its purity and naturalness, does not have rivals in all the universe. The initiates affirm clearly, that there live the best and more beautiful singer birds of all our universe, and that in number they reach the 12.000 species. And about the supra planetary formations as flowers, fruits and other thing of the same kind, it would not be enough the words of the best initiates to describe them with entire clarity, because it is say that there are acclimatized and collected almost all the flora and fauna of all the planets of our solar system.

In all the corners of that mysterious planet, there are caverns of different type. Some, made by Mother Nature; others, artificials. In them live those that are fighting in a indefatigable form, for the elimination from their nature of the last inhuman elements. There, also exists marvellous cosmic spaceships, in which they can travel through the unalterable infinite. Those spaceships, it is say that were given to these people by that Angel, or better to say, Archangel, that in the occultism is known with the name of Herkission.

So, it is worthwhile to understand all this mysteries, it is worthwhile to understand all of these things.

There is not doubt that each solar system of the unalterable infinite, has its own Sacred Sun Absolute; there is not doubt that all those Absolutes Suns of the infinite forme (in themselves) the Holy Protocosm.

Normally, it is talked about the Sacred Sun Absolute, as it were just one to all the cosmoses that live and palpitate in the unalterable infinite. It is talked in this form because in those Suns only exists the unity of the life, but in reality, the Sacred Sun Absolutes are many. Each universe, I repeat, has its own Sacred Sun Absolute. So, it also have to exists purgatory planets in all the starry space. There is not doubt that in each solar system there is a purgatory planet.

It would not be possible to the inhabitants of any system of worlds, to submerge themselves among the entrails of the Sacred Sun Absolute, if before they have not been purified. Obviously, they have to eliminate the subjective residuals that could have been left in the Existential Superior Bodies of the Being.

When I talk about the Sacred Sun Absolute, when I say that it almost was dissolved, and that it was necessary to create the solar system, that is to say, to initiate the new Mahamanvantara or new Cosmic Day, I am doing it with a clear purpose. It is clear that if it would not have been created this solar system, the Sacred Sun Absolute would have been disintegrated. Now, through the external influence of the forces that go to the Sacred Sun Absolute, this system can exists.

So, he gives life, but at the same time takes from the external world forces that allows him to exists. That is the Law of the Eternal Trogo Auto Egocratic Cosmic Common.

Now, let us pass to the sexual field.

Undoubtedly, the Laws of Three and Seven, that is to say, the Law of the Holy Triamasikamno and the Sacred Heptaparaparshinokh, are the foundation in which all this universe is sustained. About the firsts laws (the Law of Three), we know that are: the Holy Affirmation, the Holy Denial and the Holy Conciliation, that is to say, the positive, negative and neutral forces. And about the Law of Seven, I will say: The forces or lines of forces, are separated in their origin to then be united in the extremes. There is not

doubt that the Law of Seven has seven fundamental magnetic centers. In esotericism are called the Seven Stopinders.

So, the magnetic and electric powers, the sexual forces in themselves, undoubtedly pass from region to region, it descend from world to world through the Seven Stopinders or Magnetic Centers.

The sex's lines of force, in their process of descend, obviously cannot be interrupted. Normally the lines of forces originate vehicles, that is to say, are transformed in generative forces, through which the species multiply themselves. The sons of the fornication, the intellectual animals, do not ignore this.

When the creative energy has descended from the superior worlds, when it has passed through its Seven Stopinders or Magnetic Centers; when finally crystallizes in the physical world, it has to receive an special shock, if we want to return it inwards and upwards, in order to make new creations. Otherwise, it would flow downwards, in order to generate new organisms.

When we analyze this point, we understand the mistake of some abstemious monks. These monks, took the decision to keep the sperm, but because they did not know the science, degenerated frightfully: charged themselves with Veneniooskirian vibrations, terribly maligns.

It is clear that when the sperm does not receive a special shock, then it degenerates terribly, and originates the abominable Kundartiguador Organ.

The Sacred Sun Absolute gives the example: from him emanates the life, it descends from region to region, but then it takes from the life his forces. That is to say, the Sacred Sun Absolute receives a shock, that comes from the external world, and receiving it, it can live.

The esotericists also has to work in this form. But the monks keeping the sperm, went through the path of the involution: the degenerated sperm, originated two type of individuals. In the first case, we can see individual really fat and full of grease, and in the second case, thin and skinny monks. Both types, charged with terribly perverse Veneniooskirian vibrations. Both cases, very unfortunates.

These type of individuals normally are full of fanaticism and expert cynicism. So, observe what the abstemious monks are!

Message to the Gnostic Revolutionary Youth. II part.

The Revolution of the Consciousness.

Friends: we are in an era of great inquietudes. It is necessary to reflect profoundly, to review principles and to put order in our mind, with the intention to orientate ourselves wisely, through the Path of the Consciousness Revolution.

The evolution and involution, are two laws that work in coordinated and harmonious form in everything. Both in themselves, are the mechanical axis of nature.

Exists evolution in the seed that germinates, in the plant that grows and bear flowers and fruits. Exists involution in the tree that loses its leaves, to wither, that decreases, and finally become a group of logs.

There is evolution in the creature that grows in the maternal womb, in the child that grows and unfolds, in the younger, in the mature man, tanned by the Sun. Exists involution in the ancient that dotes and finally dies.

There is evolution in the world that emerges from the chaos with puissant and active life. Exists involution in the planet that dotes and that finally becomes a new Moon.

We do not deny the Law of Evolution, but we do understand that nor her, neither its twin sister, the involution, could lead us to attain the Intimate Self-Realization of the Being.

When we make from the evolution a dogma, we become retrogrades and useless creatures. So, I invite you to do a complete revision of principles.

In nature exists extraordinary phenomena, phenomena that many times, utilized wisely, give us the opportunity to enter in the Path of the Consciousness Revolution.

It is interesting to remember what a Solioonensius is. It happens that the Comet Solni, every once in a while, gets very close to the Sun Baleooto and generates tensions in it. Then, that Sun makes our Sun, of Ors, also to enter in a huge electric tension; something that as a fact shakes all our solar system, including the planet Earth. That is, exactly a Solioonensius.

Let us remember the Solioonensius of 1.917, that produced the Bolshevik revolution in Russia. In the ancient Egypt of the pharaohs, are also remembered two Solioonensius that produced huge hecatombs. So, each time that a Solioonensius comes, violent disorders are produced, huge human holocausts and bloodshed. The Solioonensius that provoked the french revolution, brought a great social reform to the entire world.

If it is truth that the Solioonensius of 1.917 provoked the bolshevist revolution, it is also truth that in the Soviet Union, appeared great initiates that founded schools of regeneration. So, every Solioonensius can be utilized to the Consciousness Revolution.

The effect of the Solioonensius of 1.917 it is still felt, and if it is truth that in these times there is chaos, hunger, anarchy and disorder in the world, it is also truth that has appeared the Gnostic Revolutionary Movement.

It is good to be known once and forever that we, the Gnostics, follow the Path of the Consciousness Revolution. The Christ talked

to us about this path in his gospel, when he said: "Because strait is the gate, and narrow is the way, which leadeth unto life, and few there be that find it."

What we are saying my dear gnostic young people, could never been understood by those that follow the path of the good master of the house. The Great Kabir Jesus, talking about these ones said: "Woe unto you, scribes and Pharisees, hypocrites! for ye make clean the outside of the cup and of the platter, but within they are full of extortion and excess." He also compares them with "whited sepulchres, which indeed appear beautiful outward, but are within full of dead men's bones, and of all uncleanness."

What it is understood by good lord of the house? What one should understand about the one that follows that path of the good lord of the house? Listen!: the path of the good lord of the house, is the path of the reactionaries, of those that hate the Revolution of the Consciousness, it is the path of the retrogrades and regressive people.

We, the Gnostics, are different: we walk through the path of Psychological Rebelliousness, because we know that this path, by itself, is the only one that can lead us to the final liberation.

The effect, or the effects of the Solioonensius are still in the atmosphere, and we have to make good use of those effects, those vibrations, not in order to enter in the regressive and reactionary path, or just in the anarchic and bloody one, but to follow the path of the Consciousness Revolution.

Friends, it is urgent to understand the state in which we are. In the ancient time of Lemuria, in those epochs in which the river emanated milk and honey, the humanity was governed by the Fulasnitamian principle. That principle gave to the human beings, long life. Then, normally it was possible to live 10 or 15 centuries; there was enough time to create in ourselves, the Superior Existential Bodies of the Being. Today, everything is different: the human specie is governed by the Itoclanos principle, that certainly is an animal principle: one dies when does not expect it, the life has become really short. In the Egypt of the Pharaohs, the people could still live 140 years. In the Middle Ages, the average of life was between 90 and 100 years, but now, in this moment, we almost do not live.

So, living with the animal principle (Itoclanos), our life normally are ephemeral. If in the epoch of Lemuria when the human being lived according with the Fulasnitamian principle, and there enough time to create the Superior Existential Bodies of the Being and to eliminate of our nature all inhuman element, now is different: we need unavoidably, to work in intense form on ourselves with the intension to Self-Realize ourselves rapidly, because the life has become very short. In this moment, a person almost reaches the 60 or 70 years of age. The life has become so short, that almost we do not live.

Reviewing principles, studying our position in the life, we can verify that youth is ephemeral and that it wither as a flower in very few years. So, it is necessary to the gnostic young people to become more reflective.

When one is young, it feels so fascinated by his own youth, that forgets the oldness. When the young listen to talk about the oldness, he believes that this one is something very far away, something not to be worried about it. However, the facts are the facts: the years pass rapidly; when one does not expected it, it happens that the oldness has arrived.

Some young people have felt enthusiasm by the Inner Self-Realization of the Being. There are those that have accepted with plaser, the principles of the Gnostic revolution of the Consciousness, but fascinated by the youth only have remembered to work in themselves in the late afternoon of their life, when it was already so late. Then, it is clear that they could not finish the work; they had to postpone it to a new existence.

If the young people, would really commit themselves to make good use of the time, they could do all the Great Work in one existence, here and now. In these moments it comes to my memory the case of Bernard Entwizano, the Great Middle Ages Alchemist. This man began young, but made the work, made the Great Work.

If the young people would know to make good use of the time, they would make all the Great Work in this existence. Unfortunately, as I said, they become fascinated by the beautiful brilliance of their 18, 20, or 25 years of age.

I want through this tape, to invite the Gnostic youth to a Revolution. It is not a revolution of blood and rum, no. I am talking emphatically about something bigger: The Revolution of the Consciousness! To make the work in ourselves, is the most important.

I want to say you emphatically, that if you in truth commit yourselves to the work in the Great Work, you will transform yourselves (if you want it) right now in terribly divine Gods, with powers over the fire, over the air, over the waters and over the earth.

Unfortunately the Antichrist, in this times has appeared and it is obvious that keep the multitudes fascinated. The Antichrist exists inside, in the depth of each humanoid creature.

So much it has been said about the psychological "I," but today it is necessary to remember the Antichrist. This, in himself, is in the root of the Ego, of the myself. Is, I would say, the reflection, or the shadow of the Inner Christ, inside of each one of us.

It has been said to us that the Antichrist, the great beast of Apocalypse, has seven heads and ten horns. This remind us about the seven capital sins: anger, greed, lust, envy, pride, laziness and gluttony. About the ten horns, it is worthwhile to remember the Wheel of the Arcanum 10: the fatal Wheel of Samsara. This is why it is said that the great beast ascend from the abyss and goes to the perdition. In front of the Great Beast is the false prophet: the Ego, the beast with two horns, that speaks wonders about the Antichrist.

Having well understood all of this, we have to know that the Antichrist is the author of many apparent wonders: atomic bombs, spaceships that goes to the Moon, machines of any kind, etc., etc., etc. Who does not prostrate in front of the beast?, who does not worship it? Everybody say: There is nothing like the beast, and prostrated they adore him.

So, the youth do not have to become fascinated by the deceptive miracles of the Great beast. You have to know that the modern science comes directly from the Antichrist, but it is fascinating, and every body falls kneeling in front of him. When somebody does not kneel down in front of the beast, the others criticize him, calling him reactionary, old fashioned.

So, the fascination that produces the beast is frightful, and the people has already forgotten that there exists the pure science; the people has preferred the rottenness of the modern theories and the miracles and delusive prodigies of the Antichrist. And this is the most grave danger to the modern youth, to the Gnostic Revolutionary Youth. The young people have to learn to utilize all the systems of locomotion, of transport, etc., etc., etc., but not falling fascinated by of the miracles of the Antichrist. The young people do not have to forget that there is a Pure Science that is very far from the rottenness of modern theories.

When one attain the Inner Self-Realization, has the right to penetrate in the amphitheatre of the cosmic science. Then, one receives the Elixir of Long Life and becomes immortal with his own physical body, been possible to live more than the normal, for thousands and millions of years.

Has the Antichrist made a serum that could let us to live millions of years? However, the Antichrist produces fascination, and for this reason the young people has to be very careful.

He, that could attain the Inner Self-Realization of the Being, will be able to transmute the lead in gold and to know the Universal Medicine, with which he will be able to do amazing healings.

INVERENCIAL PEACE
